About us...

San Pedro & Southwestern Railroad operates seven miles of track from a connection with Union Pacific's Chicago-Los Angeles main line at Benson to Curtiss, AZ. SPSR also provides switching service for UP customers at Willcox.

SPSR's headquarters and marketing office are located in Scottsdale. Operations and Customer Service are based at Benson, 35 miles from Tucson—one of America's fastest growing urban areas.

In November 2003, SPSR was acquired from RailAmerica, Inc. by the Arizona Railroad Group, an Arizona-based railroad investment company headed by David Parkinson, founder and former chairman of the Arizona & California, California Northern, and Puget Sound & Pacific railroads.

WILLCOX RAIL RAMP

—At nearby Willcox, AZ, customers benefit by receiving inbound shipments delivered in boxcars or flat cars. The transportation savings by rail can be 20% or more per unit. Call for details.

Save money the rail way

SAN PEDRO & SOUTHWESTERN
Pride of the Southwest

You can cut your shipping cost 20% or more when inbound material arrives by rail at our new rail-to-truck transload facility at Benson, Arizona.

- Because rail cars can carry three times more than most trucks, per unit costs are substantially reduced.
- Rail lumber rates from Pacific Northwest origins are about 20% less per one thousand board feet than truck. That's like getting every fifth truckload delivered free.
- SPSR's new transload track can hold up to ten rail cars.
- Three-acre site with ample parking.
- Storage/warehouse sites available.
- Drayage service available to transfer material to your work location.
- Local rail personnel are accessible, responsive and flexible.
- Ready access to growing markets, Tuscon, and the Mexican border.
- Forklift accessible.
- Fast, frequent rail service.

The Benson transload facility is easy to use
